

Name: _____

Sequence

Directions: read the passage and write what happens in the correct order. Look for the sequence key-words to help guide you. Hint: you don't have to write out every single word. It is okay to summarize.

Kieran wanted to make a clay pot to give as a gift for her sister's birthday. First, she got some clay and rolled it out onto a sheet of wax paper. Then she molded it into the shape of a bowl. Next, she put it in the oven and baked it so that it would become hard. When it was ready, and no longer hot, she painted it her sister's favorite colors. After it was dry she wrapped it up in some tissue paper and tied it with a big bow. Finally, it is ready to be given to her sister!
