

Name: \_\_\_\_\_

## **Review Worksheet 4: Nouns**

Directions: circle every noun in the following passage.

A thousand years ago boys and girls did not learn to read. Books were very scarce and very precious, and only a few men could read them. Each book was written with a pen or a brush. The pictures were painted by hand, and some of them were very beautiful. A good book would sometimes cost as much as a good house. In those times there were even some kings who could not read. They thought more of hunting and fighting than of learning.
